Ontario Provincial Police - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP Central Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP North West Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP East Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP North East Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP HSD Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.

OPP West Region - Criminal Offence Summary - Most Serious Violation

Notes:

- Statistics Canada's Uniform Crime Reporting Survey was designed to measure the incidence of crime in Canadian society and its characteristics.
- The most serious violation methodology (MSV) is used, similar to Statistics Canada. The MSV counts only the first of up to four offences per incident that occurred in the specific time range.
- NC represents "Not Calculable".
- Any "Not Cleared" values less than 0, were counted as a not cleared value of 0. These involved years were more cases from previous years were solved within that year.
- 7000 Series - Provincial Statute Violations is not included as these are not counted by Statistics Canada.
- UCR codes where Total OPP count is '0' in both years are excluded.
